

How To Sort Your Mixed Containers Quick Tips

Mixed Containers means all rigid glass, metal and plastic food containers.

Urban Impact does not need our customers to sort and keep these materials separate.

All glass, metals and plastics can be put together into the same recycling bin.

Listed below are some common items that are Acceptable and some that are Not Acceptable.

Glass Containers

Acceptable	Not Acceptable
All colors of glass bottles & jars	Glassware Window or Pane Glass Crockery

Metals Containers

Rinse and flatten metal cans. Labels do not need to be removed.

Acceptable	Not Acceptable
Metal and aluminum cans	Paint Cans Aerosol cans

Plastic Containers

Plastic container types #1, 2 are acceptable. Refer to the bottom of the container to identify the plastic type. Remove caps and flatten plastic containers.

Acceptable	Not Acceptable
